**aboutwater –**  
Your specialist  
for high-quality  
bottles

Assemble your bottle the way you want it. Our high-quality Slim and Wideneck Bottles made of borosilicate allow you to put together the ideal bottle for yourself, your employees or your customers. This is not only because of the selection of bottle models and accessories, but also because of the extensive decoration options (see next page).

With these bottles you contribute to the sustainability of your company, since you reduce the use of disposable bottles. In addition, you encourage your employees or your customers to stay hydrated and consume more water.

- Slim-Bottle: 550ml, 750ml and 1.000ml
- Wideneck-Bottle: 700ml and 1.000ml
- Tea-Bottle: 450ml
- Closures for both bottle necks in bamboo and stainless steel
- Protective sleeves in the colours grey, blue, black, pink and green

stainless steel

bamboo

# PRINTING

aboutwater is your specialist for printing your bottles.

Digital and screen printing

Also with individual names

The printing is not limited only to the **BOTTLES**, but also includes the **PROTECTIVE SLEEVES**, the **CLOSURES** and the **OUTER PACKAGING**.

This way you can place all your messages to your employees and customers in an attractive way. Depending on your printing requirements, we will choose the most suitable printing process for you. This guarantees the highest possible quality and attractive printing on the bottles while keeping costs manageable.

**DIGITAL, SCREEN OR LASERPRINT. WE KNOW HOW YOUR BRAND SHOWS ITSELF TO ITS BEST ADVANTAGE.**

The printing on the bottles is dishwasher safe, so the bottles will give you great pleasure for a long time. Like this the bottles will become a „popular business card“ for you and a constant companion inside and outside your company.

This is how also your successful branding could look like.

- Digital and screen print for bottles and outer packaging
- Laserprint for closures - also with individual names
- Different decoration technologies for the protective sleeves
