

WATER BOTTLES MADE OF BOROSILICATE GLASS

Printable all-round

**BPA
FREE**

**LIGHTWEIGHT
& ROBUST**

**ALL-ROUND
PRINT**

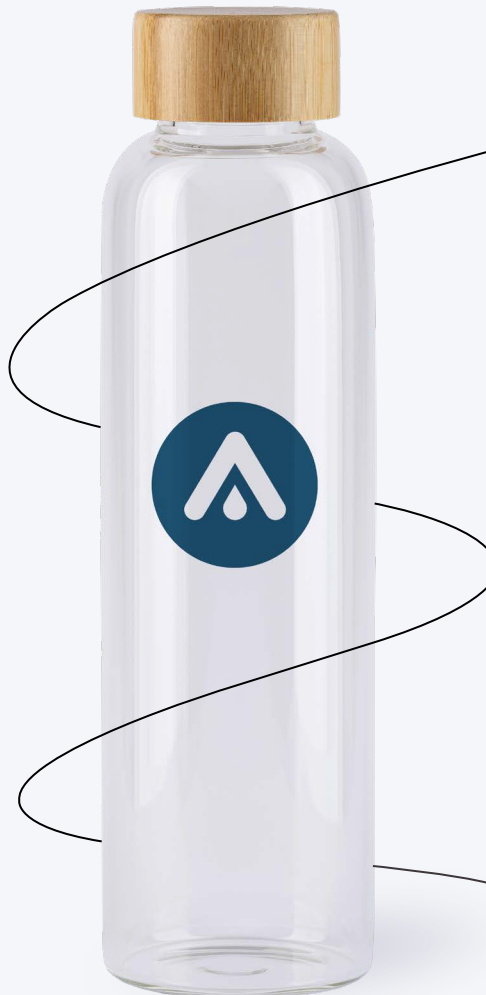

*100% leak-proof
closure, even suitable for
carbonated drinks*

NEUTRAL IN TASTE

Borosilicate glass does not absorb any flavours, odours or discolouration – which is why it is also ideal for storing food

*Precisely crafted slim bottle
base – for elegant design,
reduced weight and enhanced
everyday usability*

SCRATCH RESISTANT

Borosilicate glass does not scratch and does not become cloudy – even if it is often transported or washed. This means that a water bottle made of borosilicate remains always clear and aesthetically pleasing

SAFE

Borosilicate glass is resistant to all chemicals due to its boron content. Therefore substances do not migrate into the food stored in it, not even when the glass is heated (borosilicate glass is extremely heat-resistant, up to 515° Celsius) or cleaned

SUSTAINABLE

Borosilicate glass can be simply melted down indefinitely and is therefore completely recyclable and reusable

& PACKAGING

PRINTING & PACKAGING

Customise your glass bottles, closures and protective sleeves as you wish and get your message across thanks to almost endless design options. We also offer a printable outer packaging for each of our bottles.

PRINT

CLOSURE

Engrave a logo on the cap of your bottle. Also the name of the recipient can be engraved here, personalising it in a very special way.

PRINT

PROTECTIVE SLEEVE

Thanks to your personalised motif, you will leave a lasting impression. Every time you pick up the stylish bottle!

PRINT

PACKAGE

The customisable outer package made of sustainable material will impress you at first glance.

YOUR ALL-ROUND SPECIALIST

Contact us

We are your specialist when it comes to designing and printing sustainable water bottles for your company. We do this with a professional all-round service, fast delivery and attractive prices thanks to high-quality, cost-effective printing.

DIGITAL, SCREEN & LASER PRINTING

We know how to make your branding stand out and choose the most suitable printing process for you. We have our own digital printing machines and work with leading printing companies.

PRODUCT DESIGN & INNOVATION

We are continuously working on the development of more sustainable and even more robust materials, and new bottle designs, to make our water bottles and their accessories even more practical and more appealing.

SUSTAINABLE BRANDING

The print on our bottles is dishwasher safe, so that you can enjoy them as „popular business cards“ and constant companions inside and outside your company for a long time.
