closure, even suitable for
carbonated drinks*

INSULATED THERMO BOTTLE

Thanks to the double wall, drinks
stay warm for up to 12 hours
or cold for up to 24 hours

HIGH-QUALITY STAINLESS STEEL

High-quality stainless steel is one of the most hygienic materials. It is food-safe, odorless, tasteless and free from harmful substances. Thanks to the unique surface, which has no pores or cracks, the material cannot absorb dirt or bacteria

PRINTING & ENGRAVING

Have your bottles printed or engraved with your favourite motif, logo and name. This will give you the ideal promotional item

SUSTAINABLE

Stainless steel bottles remain hygienic and clean for many years. Stainless steel itself has a service life of over 100 years and is 100% recyclable

*Available in Stainless Steel,
White and Blue – other
colours on request*

CHOOSE YOUR DESIRED COLOUR

Our ultra-light stainless steel bottles are available in a range of elegant colours – including **Stainless Steel, White, Blue** and additional stylish colour options. Perfect for hot, cold and carbonated drinks, they are ideal companions for sports, school, office and outdoor adventures.

From 100 pcs., delivery time approx. 1 week

From 1.000 pcs., delivery time approx. 3 months

CLOSURE

The water bottles have a screw cap that closes completely tight and is easy to handle. The opening is easy to drink from and also slices of lemon fit into the stainless steel bottle.

CUSTOM COLOUR OPTION

For maximum brand visibility, our stainless steel bottles can also be produced in your company colour. **Custom Pantone colours** are available from 3,000 pieces, precisely matched to your branding. Get in touch – together we'll bring your colour vision to life.

PRINTED ALL AROUND

With all-round digital printing or an elegant laser engraving, your own branding will shine on high-quality water bottles. Convey your message with nearly infinite design options. For each of our bottles we also offer a printable outer carton made from sustainable materials.

DIGITAL PRINTING

Would you like to personalise your water bottles with single-colour or multi-colour print motifs? Digital printing is perfect for this. UV printing and the subsequent UV drying of the colours give you a long-lasting print result.

LASER ENGRAVING

We only use state-of-the-art laser engraving machines. The engraving is created by partially lasering the powder coating of the stainless steel bottles. It therefore always has a silver finish and cannot be coloured.

YOUR ALL-ROUND SPECIALIST

Get in touch with us

We are your specialist when it comes to designing and printing sustainable water bottles for your company. We offer a professional all-round service, fast delivery and attractive prices thanks to high-quality and cost-effective printing.

DIGITAL, SCREEN & LASER PRINTING

We know how to make your branding stand out and choose the most suitable printing process for you. We have our own digital printing machines and work with leading printing companies.

PRODUCT DESIGN & INNOVATION

We are constantly working on the development of more sustainable and even more robust materials, as well as new bottle designs to make our water bottles and their accessories even more practical and more appealing.

DURABLE BRANDING

The water bottles can be cleaned quickly and easily with hot water and a bottle brush. We recommend cleaning by hand to ensure the longevity of the printing.
