

WATER BOTTLES MADE OF BOROSILICATE GLASS

Printable all-round

**BPA
FREE**

**LIGHTWEIGHT
& ROBUST**

**ALL-ROUND
PRINT**

*100% leak-proof
closure, even suitable for
carbonated drinks*

NEUTRAL IN TASTE

Borosilicate glass does not absorb any flavours, odours or discolouration – which is why it is also ideal for storing food

*Precisely crafted slim bottle
base – for elegant design,
reduced weight and enhanced
everyday usability*

SCRATCH RESISTANT

Borosilicate glass does not scratch and does not become cloudy – even if it is often transported or washed. This means that a water bottle made of borosilicate remains always clear and aesthetically pleasing

SAFE

Borosilicate glass is resistant to all chemicals due to its boron content. Therefore substances do not migrate into the food stored in it, not even when the glass is heated (borosilicate glass is extremely heat-resistant, up to 515° Celsius) or cleaned

SUSTAINABLE

Borosilicate glass can be simply melted down indefinitely and is therefore completely recyclable and reusable
